

Puppy Playtime Waiver

Bark Avenue Daycamp's Puppy Playtime is a great opportunity to allow your dog to socialize with other dogs similar in age.

In an effort to keep the environment safe and stress free for our puppies, only dogs under the age of **6 months** old are allowed in Puppy Playtime. On occasion, we find larger breeds and high energy breeds can become overzealous in their play as they get older; in these cases, we may ask that you to discontinue Puppy Playtime and move into our normal daycare going forward. *Please note that this in no way suggests your puppy is unsocial or has any behavior problems, simply that they have matured to a state that requires a more structured adult play environment such as in our normal daycare.*

Due to the age of the puppies invited to take part in this activity, some vaccines may not have been administered. It is expected that owners will take full responsibility for ensuring that their puppy is in otherwise good health before attending each playtime session.

I hereby waive and release Bark Avenue Daycamp, Inc., its employees, owners, and agents from any and all liability of any nature, for injury, sickness or damage which I, my family or my dog may suffer while taking part in this event.
